Send Invite

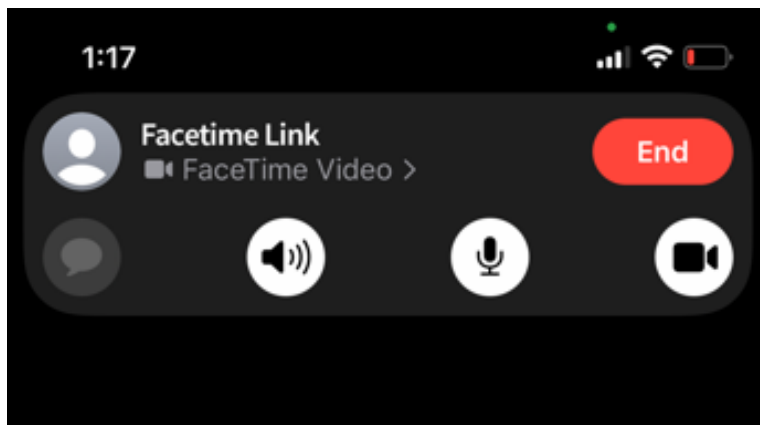

Step 4: Go back to FaceTime and click on the link you just created (you'll see it under "Upcoming") and tap **Join**.

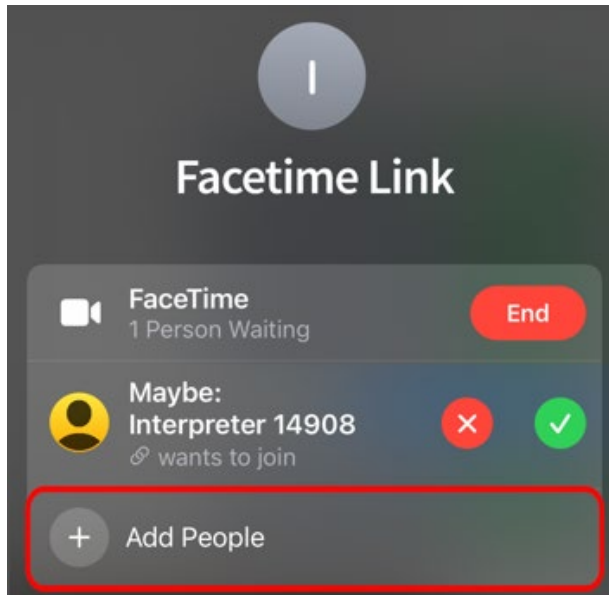

Step 5: The interpreter will need a short time to join the FaceTime call. When you see the popup message, click the green check button to allow the interpreter to join.

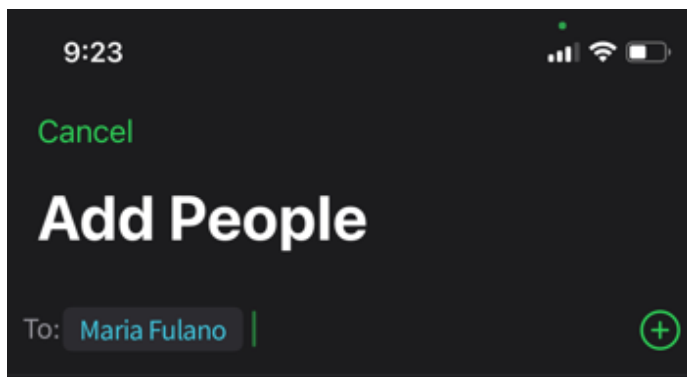

Step 6: Now let's invite the other person. Click on the name of the call in the popup message at the top to open a menu. (If you don't see it, just tap the screen and it will appear.)

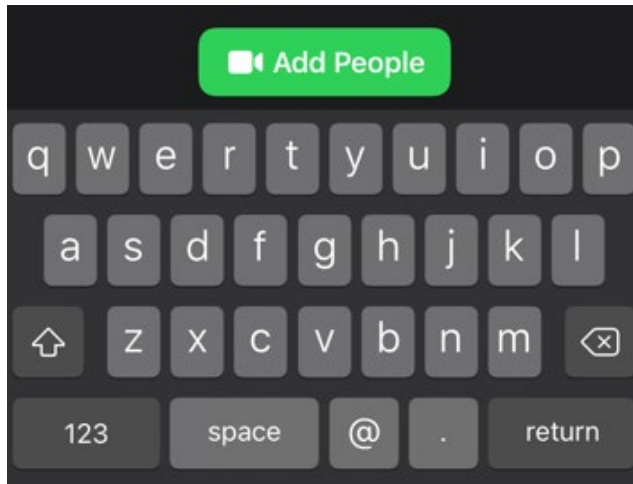

Step 7: Click on **Add People**

Step 8: Enter the name of the person you want to talk to (if they are in your contact list) or dial their number directly. (If you dial the number directly, please remember to hit “Return”.) You can certainly add more than one person if you want.

Step 9: Click on **Add People** again. They will receive the invitation.

Step 10: When they click on that invitation, click the green check button to allow them to join, just as you did with the interpreter in Step 5.
