Name of active theme

You can use the right and left arrow controls in the *What is my phone theme?* area to select a theme. In this example, the default "Sand Dune" theme is selected. All of the sample screens shown above show the Sand Dune theme's "light-tan and white" color palette.

#### Step 5. Select the left or right arrow button to choose another theme as shown below.

Name of active theme

To make the selected theme active, just return to the *Home* screen to apply the theme.

#### Step 6. Press the remote control's Home key to return to the Home screen as shown below.

The above image shows the "blueish-teal and white" color palette of the "Ocean Tide" theme. The yellow color that is used in the "Sand Dune" theme to show the highlighted selection is also used in this theme.

- Step 7. To try out the other available themes, just return to the "What is my phone theme?" area of the Screen Controls setting screen to make another theme selection.
- Step 8. Select the Contrast theme to make the Home screen appear as shown below.

The above image shows the "black and white" color palette of the "Contrast" theme. The buttons, fields, and active areas of the screen are shown as dark gray areas against a black background, while active buttons are shown in a brighter yellow with black text. The text is either white or black to provide maximum visual contrast.

Step 9. Select the Thunderstorm theme to make the Home screen appear as shown below.

The above image shows the "black, gray and white" color palette of the "Thunderstorm" user interface theme. The overall look is similar to the "Contrast" theme, except a lighter gray is used in many areas, giving the UI an overall gray-themed look. The default yellow (used for highlighted selections in the "Sand Dune" theme) is also used in this theme.
